

# RENACEE\_MD Profile of ICj scholarship recipients

Hello Junior Scientific Initiation (ICj) scholarship recipients from **RENACEE MD - National Network for Education and Extension of Digital Girls**.

We want to know about the journey you've taken so far, how your knowledge has grown, and what your main interests are in the field of Computing. You can talk about this before and during your participation in the project.

Furthermore, we want to know what types of technologies you have access to. We also need to consider some social, economic, and population characteristics to ensure greater inclusion and...

Possible diversity in the project.

Your responses are very important for us to assess the impact the project may have and to improve future editions.

Thank you so much for your participation!

I confirm that I am an ICj scholarship recipient from RENACEE MD.

## Free and Informed Consent Form (TCLE)

By completing this form, you agree to voluntarily participate in the research entitled "Intersectionalities in removing barriers to the entry and training of women in Computing," conducted by researcher Anna Beatriz Marques, under the guidance of Professor Luciana Salgado, from the Federal Fluminense University (UFF).

The objective of this stage of the research is to better understand the sociodemographic profile of female students and teachers in basic education and undergraduate students participating in the ReNacEE\_MD project. Information will be collected about their background, access to technological infrastructure, contact with computing, and their expectations regarding participation in the project.

- **Voluntary participation:** Your participation is voluntary, involves no costs or financial compensation, and you may withdraw at any time without penalty. Completing the questionnaire takes approximately 15 to 20 minutes.
- **Risks and benefits:** No significant risks are foreseen. You may choose not to answer any question that causes discomfort. All information will be treated confidentially and responsibly. As a benefit, you will be able to participate in activities and contribute to research that seeks to promote greater equity and inclusion.
- **Confidentiality and anonymity:** Your data will be kept confidential, securely stored, and analyzed only in aggregate form, without individual identification.
- **Data storage:** The collected data will be analyzed only by the research team, stored securely, and used exclusively for academic and scientific purposes.
- **Research results:** The results may be disclosed in reports, events and publications, always anonymously, without individual identification.  
If you would like to receive a summary of the results, you can request it from the research team.

For female students under 18 years of age, it will be necessary to complete the **Assent Form** and submit the **Consent Form signed by a legal guardian**.

If you have any questions, please contact the lead researcher at [annaa.marques@gmail.com](mailto:annaa.marques@gmail.com).  
For information about your rights as a research participant, please contact the UFF Research Ethics Committee at [cep.isnf.comite@id.uff.br](mailto:cep.isnf.comite@id.uff.br).

*Check all that apply.*

- ☐ Yes, broadband (fiber optic/cable)
- ☐ Yes, but only via mobile network (cell phone data).
- ☐ Yes, but with a limited or unstable connection.
- ☐ I don't have internet access.

### Prior Contact with Computing

7. Before joining the project, **what** was your interest in the field of Computer Science?

*Select only one option.*

*Mark only one oval.*

- ☐ None
- ☐ Little
- ☐ Moderate
- ☐ Very

8. Before this project, how often did you have contact with activities related to computing? \*

*Select only one option.*

*Mark only one oval.*

- ☐ Never
- ☐ Rarely
- ☐ Sometimes
- ☐ Weekly
- ☐ Daily

9. Have you had any prior contact with any computer science subjects or courses before this project? \*

*Select only one option.*

*Mark only one oval.*

- ☐ Never
- ☐ Rarely
- ☐ Sometimes
- ☐ Weekly
- ☐ Daily

10. How would you rate your level of computer science knowledge before starting the project? \*
